CRAWFORD Corner Broadway and Franklin Avenue. Secretary Blaine in the Act of Twisting the Lion's Tail.

Lord Salisbury Rakes Up Some History In His Reply.

Representative Hitt's Resolution Brings On Some Interesting State Papers-A Paper Begun By Charge d'Affairs Edwards and Secretary Bayard, Which

Marquis of Salisbury and Secretary Blaine Have Continued to Date-The Accuracy of the Plumed Knight's Historical Information Questioned by One Minister and His Knowledge of Seal Fishing Attacked by Another-Raising a Question of Morals in the Controversy-Some Cheap Diplomacy.

WASHINGTON, D. C., July 23.—The President to-day sent to the House of Representatives in answer to the resolution introduced ience between the Government of the United touching the seal fisheries of the Behring Sea. In his accompanying letter of transmittal to the President, Secretary Biaine, under date of Bar Harbor, July 19, regrets theldelay in transmission which the President directed on the 11th inst., and says that correspondence is still in progress. The correspondence includes thirty separate papers beginning with a letter from Mr. Edwardes, First Secretary of Legation and Charge d'Affairs after Minister West's recall, dated August 24, 1889, and closing with one from Secretary Blaine to Sir Julian Pauncefote, the British Minister, dated July 19, 1890. The first letter reads as follows:

MR. EDWARDES TO MR. BLAINE MR. EDWARDES TO MR. BLAINE.

BAR HARBOR, August 24, 1889.

Sir—In accordance with instructions which I have received from her majesty's principal secretary of State for foreign affairs, I have the honor to state to you that repeated rumors have of late reached Her Majesty's Government that United States cruisers have stopped, searched and even seized British vessels in Behring Sea outside the three-mile limit from the nearest land.

Aithough no official confirmation of those rumors has reached Her Majesty's Government there appears to be no reason to doubt their authenticity.

a dispatch to Sir I. West dated September 10, 1887, which was communicated to Mr. Bayard, I drew the attention of the Government of the United States to the illegality of these proceedings and expressed a hope that due compensation would be awarded to the subjects of Her Majesty who had suffered from them. I have not since that time received from the Government of the United States any intimation of their intentions in this respect, or any bope that due compensation would be awarded to the subjects of Her Majesty who had suffered from them. I have not since that time received from the Government of the United States any intimation of their intentions in this respect, or any explanation of the grounds upon which this interference with the British sealers had been authorized. Mr. Bayard did, indeed, compunicate to us unofficially an assurance that no further seizures of this character should take place, pending the discussion of the questions involved between the two governments. Her Majesty's Government much regret to find that this understanding has not been carried forward into the present year, and that instructions have been issued to cruisers of the United States to edge British vessels fishing for seals in Behring Sea outside the limit of territorial waters. The grounds upon which these violent measures have been taken have not been communicated to Her Majesty's Government have previously the majest of the seizures of which Her Majesty's Government have previously the majest of the seizures of which Her Majesty's Government have previously them, and to state that, in the opinion of Her Majesty's Government they are wholly unjustified by international law."

It appears that Mr. Blaine inquired what authority there was for the above stated assurance of Mr. Bayard, as in a note on October 14 last Mr. Edwardes says that it was an assurance communicated unofficially to his Lordship by the United States Minister in London, and also by Mr. Bayard to Minister West in April, 1888. The correspondence between Secretary Blaine and the new British Minister began January 20 of this year with a very long letter from the Secretary to Sir Julian Pauncefote. The Secretary opened with an acknowledgment of the receipt of the papers bearing on the Seizures Males By The Rush.

He says: 'In the opinion of the President, the Canadian vessels arrested and detained in the Beniring Sea were engaged in a pursuit that was in itself contra bonos mores, a pursuit which of

action complained of by her Majesty's Government."

The Secretary then speaks of the value of the seal fisheries, which were controlled by Russia without interference or question until the cession of Alaska to the United States in 1887. This undisturbed possession continued to the United States until 1886, passing whaling vessels abstaining from seal capture. He says that this uniform abstinences of all attempts to take for seal in those waters had been constant recognition of the right had and exercised, first by Russia and subsequently by this government. It had also been the recognition of a fact now held beyond dealsd or doubt, that the taking of seals in the open sea rapidly leads to their extinction."

or seals in the open sear apidly leads to their extinction."

The secretary says that this is proved not only by expert testimony, but by the total DESTRUCTION OF ALL SEAL FISHERIES, except the one in the Behring Sea, which the Government of the United States is now striving to preserve, not allogether for the use of the American people, but for the use of the world at large. He recites the successful efforts of the United States Government to improve and preserve the fisheries, resulting in the payment of more than \$12,000,000 to English laborers for the preparation of the sealskins and the elevation to civilization of the natives of Alaskan islands.

The control of the co

Government justifies, or at least defends the course of the Canadian vessels, rests upon the fact that they are committing their acts of destruction on the high seas, viz: More than three marine leagues from the shore line. It is doubtful whether Her Majesty's Government would abide by this rule if the attempt were made to interfere with the fisheries of Ceylon, which extend more than twenty miles from the shore line, and have been enjoyed by England without molestation ever since their acquisition. So well recognized is the British ownership of those fisheries, regardless of the limit of the three-mile line, that her majesty's government feels authorized to sell the pearl fisheries' right from year to year to the highest bidder. Nor is it credible that modes of fishing on the Grand Banks, altogether practicable, but highly destructive, would be justified or even permitted by Great Britain on the plea that victous acts were committed more than three miles from shore. SoliEntific FACTS.

"There are, according to scientific authority, great colonies of fish on the Newfoundland banks. These colonies resemble the seats of great populations on land. They remain stationary, having a limited range of water in which to live and die. In these great colonies it is, according to expert judgment, comparatively easy to explode dynamite or giant powder in such a manner as to kill was aquantities of fish and at the same time destroy countiess numbers of eggs. Stringent laws have been necessary to prevent the tak-

tention and that the Russian Government was disposed to join in the proposed are gotiations, but they were suspended for a time of the proposed are gotiations, but they were suspended for a time of the proposed are gotiations, but they were suspended for a time of the proposed are gotiations, but they were suspended for a time of the proposed are gotiations, but they were suspended for a time of the proposed are gotiations, but they were suspended for a time of the proposed are gotiations, but they were suspended for a time of the proposed are gotiations, but they were suspended for the proposed are gotiations, and they are gotiation and the proposed are gotiations, and they are gotiations and the proposed and we proposed are gotiations, but they were suspended for the proposed and they are gotiations and they

to prevent such violation of the common rights of man?"

"In the such apporters of justice in all nations to be deal ared incompetent to prevent wrongs as codicing and so destructive?"

In the judgment of prevent wrongs as codicing to the sea and the libeary which is content and which is protects be perverted to justify acts which are immoral in themselves, which involved the sea and the libeary which is content and which is protects be perverted to justify acts and against the welfare of mankind. One step beyond that which Her Majesty's Government has taken in this contention and piracy finds its jurisdiction. The resident does not conceive it possible that Her Majesty's Government of the United States, in the Bovernment of the United States, in order to adjust all differences of view, and has, in the judgment of the President, already proposed a solution of the Government of the United States, in order to adjust all differences of view, and has, in the judgment of the President, already proposed a solution for reasonable adjustment which Her Majesty's Government or the position of the President, already proposed a solution not only equitable but generous. Thus far Her Majesty's Government has declined to accept the proposal of the United States. The President all differences of view, and has, in the judgment of the President, already proposed a solution not only equitable but generous. Thus far Her Majesty's Government has declined to accept the proposal of the United States. The President all differences of view, and has, in the judgment of the President, already proposed a solution of the President, already proposed a solution to only equitable but generous. Thus far Her Majesty's Government would deply regret that the President all differences of view, and has, in the president all differences of view and was all diff

States touching this serious question. This Government has been ready to concede much in order to adjust all differences of view, and has, in the judgment of the President, already proposed a solution not only equitable but generous. Thus far Her Majesty's Government has declined to accept the proposal of the United States. The President now awaits with deep interest, not unmilted with solicitude, any proposition for reasonable adjustment which Her Majesty's Government may submit. The forcible resistance to which this Government is constrained in the Behring Sea is, in the President's judgment, demanded not only by the necessity of defending the traditional long established rights of the United States, but also the rights of good government and good morals the world over. "In this contention the Government of the United States has no occusion and no desire to withdraw or modify the positions which it has at any time maintained against the claims of the Imperial Government of Russia. The United States will not withhold from any nation the privileges which it demanded for itself when Alaska was part of the Russian Empire. Nor is the Government of the United States disposed to exercise in those possessions any less power or authority than it was willing to concede to the Imperial Government of Russian Empire. Some in the States disposed to exercise in those possessions any less power or authority than it was willing to concede to the Imperial Government of Russian Empire. Some in the States disposed to exercise in those possessions any less power or authority than it was willing to concede to the Imperial Government of Russian Empire. Some in the same friendly nations always conceded to the Empire of Russia."

February 10 addressed Mr. Blaine a letter informary him that his Government was willing formary ling that his Government was willing the concede to the limited states and in the waters of Alaska which the same friendly nations always conceded to the Empire of Russia."

justice and conciliation and with the most carnest desires to terminate the controversy in a manner honorable to all parties and worthy of the three great nations concerned."

THE MARQUIS OF SALISBURY, under date of May 22 last, in a letter to the British Minister, after saying that the negotiations between Mr. Blaine and the Minister afforded strong reason to hope that the question is in a fair way towards a satisfactory adjustment undertakes to reply to Mr. Blaine's arguments.

Relative to the statement that the seizures were justified by the fact that they were "entaged in a pursuit that is in itself contrabonos mores," a pursuit which of necessity involves a serious and permanent injury to the right of the Government and people of the United States, the Marquis says:

"It is obvious that two questions are involved; first, whether the pursuit and killing of fur seals in certain parts of the open sea is, from the point of view of international morality, an offense contra bonos mores; and secondly, whether, if such be the case, this fact justifies the seizure on the high seas and subsequent conflication in time of peace of private vessels of a friendly nation. He says further: "It is an axiom of international maritime law that such action is only admissible in the case of piracy or in pursuance of special international agreement. This principle has been universally admitted by juries and was very distinctly laid down by President Tyler in his special message to Congress, dated the 27th of February, 1843. when, after acknowledging the right to detain and search a vessel on suspicion of piracy, he goes on to say: "With this single sucception, no nation has, in times of peace, any authority to detain the ships of another upon the high seas, on any pretext whatever, outside the territorial jurisdictions."

his death will be deeply regretted. He was born in Wexford, Ireland, but came to St. Louis in his youth. He never entered politics, but he accepted a position in the School Board and made such a good director that he was re-elected on the reform ticket and Mr. Judson, then president, insisted that he should sccept the chairmanship of the Building Committee, the most important committee of the Board and the position he occupied required a man of the sternest integrity. He died of abscess of the liver. For eight months he was confined to his bed, and during that time he was tenderly nursed by his wife and comforted by the unremitting attention and care of his brother, Andrew.

John Tenner, son of J. B. Tenner of Belleville, was married yesterday in Atchison,

ARBITRATION FAILS.

THE WAITERS' STRIKE PROVES TOO MUCH OR COMMISSIONER MERRIWETHER-

oyers' Objections to the Union Con Who Finds Them Unwilling to Make cott Denied-The Week-Old Strike.

There is apparently no more probability of early settlement of the walters' strike toay than there was yesterday. A meeting of the Restaurant and Hotel-keepers' Association as held late yesterday afternoon and by inritation Labor Commissioner Lee Merri ther, who has been for several days investgating the strike, was present. Mr. Merri her wanted to get a statement from the loyers of their side of the difficulty. them the following statement pre-

pared by the Executive Committee of Union regarding the strike in the Delicates.

'Two months ago he [the Delicatessen Co.] vas paying his lunch waiters 50 cents for four and one-half hours' work. All the other resurants were paying 75 cents for the same lunch men refused to work unless work. Thereupon they struck, per week for twelve hours. plaimed that he was saving money-about \$18 vards went back upon this statement. Up this time we had already held two meetings fter these meetings a committee waited upon en Co., and presented the scale of wages per week of six days, and ten hours to coneceive 75 cents for three hours and 25 cents nceded the scale of wages and hours conceded the scale of wages and hours adopted by the union, and all other restaurant proprietors did the same. Everything ran satisfactorily as far as the waiters were concerned until they (the waiters) got on to the fact that the Woman's Training School was hiring gits for the Spragues. As soon as the waiters heard of that they called a special meeting of the union and drew up a contract for the Delicateseen Co. to sign, which was refused. Thereupon they decided to waik out, in order not to give the Spragues a chance of throwing them out."

refused. Thereupon they decided to waik out, in order not to give the Spragues a chance of throwing them out."

Regarding the strikes in other restaurants the waiters said they had presented similar contracts to other proprietors, and on the refusal of signatures the men walked out.

Waiter R. Sprague spoke for the Delicatessen Co., admitting the substantial correctness of the waiters' statement. He excepted some points. He denied that 75 cents was paid extra men before the demand made upon his company in any restaurant except one in the city, and in that exception the men were not fed, whereas they received two means in the Delicatessens. Lee Moser and other restaurateurs corroborated this.

Mr. Sprague said the waiters had taken advantage of a time when business was heavy to make a demand for increased wages and decreased bours, which, though under ordinary circumstances the restaurant propriedors could not afford to grant, they were compelled to allow or lose the big business then in the city. There was no time specified for the continuance of the scale thus forced upon them, and the proprietors did not intend to continuate it. They proposed to return to the old scale at an early date, and this intention becoming known to the men they presented the contract. The strike followed the refusal of the proprietors to sign.

MR. MERRIWETHER WANTED TO KNOW what the objections of the employers were to the contract and read it, a clause at a time. He found the employers bitterly opposed to it and when asked this morning for the result of his efforts to arbitrate said:

"The result can be expressed by a big round cipher. I met the restaurant and hotel keepers yesterday and learned that it would be useless to bring them and the men together. The waiters' committee had sug-

cound cipner. I met the residurant and notel keepers yesterday and learned that it would be useless to bring them and the men together. The waiters' committee had suggested to me that it might be well to have a committee of the employers meet to talk over the trouble; but I do not think any good could come of that.

proposed to make in the conditions existing at the time of the strike was contained in THAT THIRTY-DAY CLAUSE.

That the employers admitted. They objected to that clause for various reasons. One reason was they would be bound by the contract, while the waiters as individuals would not be. The employers could not change their force without giving thirty days' notice, but every man could quit work when ever he pleased, and they might all please to quit at once. If in a season of rush there were not enough union men in the city to handle the business, non-union men would have to be employed and the contract would be broken. In a season of rush the waiters might demand increased wages and quit as individuals when refused. Then if the employers wanted to change and gave thirty days' notice the men, by breaking china and gruff treatment of customers, might entails occonsiderables loss upon employers that the latter would be forced to give them thirty days' wages and let them go.

"In addition to these coldections. I found."

North St. Louis.

THE OLD SCALE OF WAGES.

THE OLD SCALE OF WAGES.

Before the recent convention of the Christian Endeavor Societies the wages were \$8 per week and twelve hours work. The men took advantage of the approach of the convention to secure increased wages and reduced hours. The employers acceded, but they had no idea of maintaining the new scale. They say now that they will employ union men who got them as individuals and apply for work, but they will not make terms with the ufilon. The men got the best of them before the Christian Endeavor Convention, and now they have the best of the men. "I do not see that there is any chance for a settlement of the strike through arbitration."

a settlement of the strike through arbitration."

IT IS ONE WEEK TO-DAY
since the strike began. The Delicatessen sixty
were the first to walk out. Thursday the
strike spread to other restaurants and Friday
the remainder were involved. In the past
week some of the strikers have found employment of various sorts without violating their
pledge to the union, others have violated their pledge and have returned to work
and still others have left the city but the main
body remains faithful and unemployed, awaiting a settlement of the difficulty. There have
been as yet few applications for relief from
the men. Nearly all are able to remain out
without applying for assistance from the
union's youth—it is not over three months old
—is not crowded with funds, but other organizations and individuals have offered assistance.

—is not crowded with funds, but other organizations and individuals have offered assistance.

Another sort of assistance is expected from all labor organizations by the waiters. They are expected to refuse patronage to non-union restaurants. A story was printed this morning to the effect that a committee from the Typographical Union had waited upon J. M. Morris, proprietor of the Commercial, and had notified him that unless he signed the union contract the printers would

REFUSE TO PATRONIZE HIS PLACE.

Mr. Morris said this morning, "I have seen no committee from the printers. Individuals have talked with me trying to induce me to sign the union contract, but no one has threatened to boycott my restaurant if I don't sign. I have told those who have approached me that I could not sign the contract. It proposes that I shall be bound while the men will not be bound. They can quit whenever they like, but I must give thirty days' notice of change in men, hours and wages. I cannot do business and give the men ten hours, and I cannot afford to pay \$10 a week. There is nothing in the contract to prevent the men doing, just as they have done every Fair week for three or four years, demanding from \$3 to \$4 per day. We are getting along now very well and so are the other restaurant men. When rush time comes we'll find plenty of men to work. I guess, if we pay them what they ask."

THE STOCK BROKERS

An Improved Feeling Prevailing in Specula tive Circles.

By Gaylord-Blessing Private Wire. New York, 9 a. m.—A moderately improved feeling prevailed in speculative circles in the treet after the board closed yesterday and uptown in the evening, and it was doubtles lue in a measure to the firmer tone which prevailed in the room at the end. Short cow ing had considerable to do with the change noted, so said the brokers. The late cut by noted, so said the brokers. The late cut by the Zoo has been ignored and the better rate situation is due to good sense shown by the St. Paul and the Chicago & Alton roads. The Sugar trustees yesterday afternoon appointed a committee to formulate a plan of reorganization; if this committee cannot agree, they will probably conclude in a friendly sort of way to put the whole thing into the hands of a receiver and thus avoid expensive litigation. It is said that the advance of 1 per cent in Government bonds since Saturday was caused by purchases by the First National Bank party, who expect to sell them to the Government to-morrow at a net profit. It is expected that if a large amount of bonds are party, who expect to sell them to the Government to-morrow at a net profit. It is expected that if a large amount of bonds are bought, it will boost the stock market and all eyes are bent on Washington. The Times to-day says it is reported that the E. T., V. & G. Railroad is to parallel the Louisville & Nashville Railroad from Mobile to New Orleans, so as to give it an outlet for Mobile and Birmingham, the present southern terminal division of the road.

The London market was supposed by the prices cabled oger to be buoyant, but we could not see why, as the prices only compared to ours of the day before. However, London has but a few stocks here to-day, and that counts for a good deal in this kind of a market. The market has improved fractionally, though no broadening can be observed. There is a feeling in the street that the Secretary of the Treasury will buy a good many bonds to morrow, and that these purchases will relieve anxiety about the money market, but careful people will wait until purchases are made.

"In order to ascertain the feeling of the employers I read the contract to them clause by clause. It provides for the employment of union men only, establishes ten hours as a day, \$9 as the wages for six days work, \$10 for seven days' work, and 75 cents for three and one-half hours for lunch men, and requires thirty days' notice before the abrogation of any part or the whole of the contract. ANOTHER PROOF Magic Belt.

EAST. LOUIS. ILL., July 22, 1890.

TO MRS. ROS. SABINE, 1410 Pine Street,
St. Louis. Mo.

I had been prostrated nearly six years from a complication of female stroubles accompanied with inextreme pain that my case was really critical. It
could not walk, stand or lie down but for a very short
time. Had tried several first-class physicians, but
grow worse under their treatment. At this stage all
hope had vanished, when your "MAGIO BELT" was
nade known to me, and to our great surprise it proved
like a message from heaven. My terrible pain left
me the first day and in less than two weeks I found
myself so much improved that I hardly knew myself.
We all consider the Magic Belt a wonderful article
and cheerfully recommend it to all who havesuffered
as I have as the only sure cure and would be glad to
answer any questions or communications.

Subscribed and sworn to before me this 22d day of uly, 1890, PHILIP H, ZEPP, Clerk of the Circuit Court, City of St.

The original and only genuine Magic Belt is manu-tured only by MRS. ROS.

THE Pennsylvania Dunkards, Mennonites, and Schwenkfelders, who have hitherto voted the Republican ticket, bave found Quayism too much for them, and have determined to cast a solid vote for PATTISON. Quayism is likely to die of its own hideousness.

EVERY protest from a business man against the Lodge election bill is a nail in the coffin of that rotten scheme. No city in the country is more vitally interested than St. Louis and the merchants and manufacturers of the city ought to make themselves heard.

"JUSTICE cannot be done to any im-'fportant measure in a committee or in 'any body without a full and free discus-"sion," says Mr. BLAINE's alter ego Senator HALE. There is a surprising lack of solidarity between Mr. BLAINE and his neighbor, Speaker REED.

THE action of the School Board Building Committee in asking St. Louis architects to submit plans for a school building free of charge in competition with a young architect from Joliet working for a reputation, was, to say the least, in very bad taste. If an architect's plans are not worth paying for they are certainly not worth considering.

SENATOR HALE of Maine, who is close to Secretary BLAINE, and is supposed to reflect his views, thinks that the McKIN-LEY bill did not go to the Senate with the prestige that would have attached to it had it been debated in the House. It will have still less prestige after the Senate gets through with it. Debate in the Senate will produce the same effect that want of debate produced in the Failing, with the first cargo of tea of the sea-

It will not be so easy to count in a solid delegation of Representatives elected by Federal supervisors, nor so easy for Federal supervisors to elect them in the face of the intelligence and morality of a whole State arrayed against them.

LORD RANDOLPH CHURCHILL has no succeeded very well as a party man because he has always refused to become part of a party machine. But no English politician save Mr. GLADSTONE has a better understanding of popular conviction and he may yet prove himself wiser in his generation than the more experienced Tory leaders. He has an Amercan wife however, which no doubt accounts for much of his shrewdness. Mr. JOSEPH CHAMBERLAIN has been very wayward of late but now that he too has an American wife we may look for more consistency and penetration. American ideas may always be found where there is an Amer

THE House by a vote of 113 to 97 substituted the interstate commerce bill pro posed by REED of Iowa for the one pro posed by Wilson of lowa and passed by the Senate. The Wilson bill applied only to liquors, and provided that they should be subject to State law whenever imported into any State and held there for sale. The Reed substitute provides that "any article of commerce" imported and held or offered for sale in any State shall be subject to State law. This puts dressed beef, oleomargarine and all other articles of commerce on the same basis as liquors, and to that extent it is a better bill than Wilson's The aim of the latter is to permit the citisen to import liquor for his own use in advertising is Post-Disparch. Telephone 284. a Bulgarian Exarch in Macedonia. Greece has l ness i

spite of State law, but to validate State laws forbidding any sale of liquors. The intent of the substitute is to apply the same restriction precisely to all articles of commerce. But we do not see how any act of Congress can transfer that body's exclusive power to a State, or authorize any State to prohibit a sale by importers, while the Supreme Court holds that such State prohibition is unconstitutional and void.

Ir seems to be the desire of Congress t subject interstate commerce to State law to such an extent as will enable a State to prohibit the sale, but not the personal use of an imported article by the importer within the State. This would enable any State to prohibit the manufacture or sale of tobacco, oleomargarine or any other article, and its citizens could then import them for their own use, but could not sell them to a neighbor, and every citizen of the State would have to import such articles for his own consumption or do without them. That sort of thing might become a very serious restriction of trade between the States, and some day lead to a war of retaliatory restrictions such as we had under the old Articles of Confederation.

Disentisfied Greeks.

LONDON, July 28 .- Advices from Athens represent the Greeks as deeply dissatisfied with the special object of writing up the Dustance and Bulgarian demand for the appointment of a Bulgarian Exarch in Macedonia. Greece has

claimed the large majority of Bulgarian Chris-tians in Macedonia as members of the Greek Church, and grounded upon that claim an expectation that, at the ultimate division of the Ottoman possessions in Europe, Macedonia would fall to the share of Greece. The recognition of Bulgarian Church authority in Macedonia donia is, therefore, a political as well as reigious disappointment to the Greeks.

NEW YORK, July 23 .- Word was received at the Maritime Exchange this forencon steamer Egypt of the National Line had been abandoned at sea. She was said to be on fire at the time. The news of the abandonment of the steamer Egypt received at the Maritime Exchange this morning was by cable from London and did not say whether the crew was saved or not, nor did it give the locality of the abandonment. At the office of the National Line Co. in this city the agents said that all they know of the reported loss was what they learned from the Maritime Exchange cable. They had not received any word from their London office. The agent said that the Egypt left here on July 10 for Liverpool. She was commanded by Capt. Summer and had a crew of seventyman. She carried a general cargo, including 640 head of cattle. She had no oil or explosives in her cargo and carried no passengers, she having been lately employed

in freight traffic only. LATER. Further cables to the Maritime Exchange state that the crew of the Egypt battled with the flames for twenty-four hours after they boats. All the cattle were lost and the cattlemen, after spending two days in open boats, were picked up.

The News From London.

LONDON, July 23 .- The Dutch steamer Spaarndam, Capt. Boujer, from New York July 19 for Boulogne and Rotterdam, passed the Isle of Wight to-day. She signaled that the National Line steamer Egypt, Capt. Sumner, from New York July 10 for Liverpool, had been abandoned while on fire at sea, and her crew were on board the British tank steamer Manhattan, Capt. Roberts, from New York July 19 for Holland, and would be landed at Dover. The Egypt did not carry any first class passengers. She was an iron screw steamer of 2,959 net tons and 4,670 gross tons burden. She was built in Liverpool in 1871. In addition to the regular crew there were on board twenty-two cattle men.

HOLDING THE CAR.

WHY MR. BREEN RAN SHORT OF ICE ON MONDAY.

Car Billed to North Market Street Sent to Sixteenth and Clark Avenue, and Extra Terminal Charges Demanded in Consequence-Investigating the Blunder-An Abundance of Cheap Ice.

.OR some days it has been evident that Mr. Breen has not been having fair play in the matter of his cars of ice. This morning which look as though be made out against at

least one man in railway employ. The car which left Wisconsin on Friday with a load of ice ough to have arrived at the North Market street tracks on Sunday night. Early on Monday morn ing Mr. Breen was on the hunt for the car with four wagons ready to unload it. No in-

on could be gleaned as to the wherebouts of the car, and after several bours' waiting is became necessary to notify the customers to whom ice had been All day Monday was spent in searching for the car, Mr. Breen knowing that every hour it was left side-tracked the wastage must necessarily be increased. A supply was procured elsewhere for pressing demands and thus there was some business done yesterday, although the car in question failed to materialize.

When it became evident that there was something more than an ordinary railroad delay, inquiries were set on foot and it was delay, inquiries were set on foot and it was found that the car, which came on the "K," line had passed through Ferguson on Sunday at noon. Further inquiries developed the fact that someone at Ferguson had sent the car on the Wabash tracks to the Mill Creek Valley terminals instead of to North Market street by the Vine streetline. That the error was intentional it was and is still hard to believe. The car was properly bilted and labeled, and the other cars, billed and labeled in similar manner, had all gone to North Market streets, where they had been unloaded.

But there was no time to stop and hunt out the cause of the singular break. The car was hunted for and finally found at Sixteenth street and Clark avenue over a minature lake formed by the melted and melting ice. Then another hitch occurred. Someone, professing to represent the Bridge & Tunnel Co., refused to allow the car to be unloaded unless \$5 additional terminal charges were first paid. Mr. Breen protested, arguing that he would have rather paid the company \$20 for not bandling the car, but as he was powerless in the matter and as the lee was rapidly melting away, he paid the \$3 and this morning the loe is being unloaded. The wastage is about four times as great as in any proceding car and times as great as in any proceding car and treatment while composing it and believed the sound of the wastage is about four times as great as in any proceding car and treatment while composing it and believed the sound of the wastage is about four times as great as in any proceding car and treatment while composing it and believed the sound of the wastage is about four times as great as in any proceding car and treatment while composing it and believed the sound of the wastage is about four times as great as in any proceding car and treatment while composing it and believed the sound of the wastage is about four times as great as in any proceding car and treatment while composing it and believed the sound of the composing the car, but as he was a proceding car an found that the car, which came on the "K,"

atory nature has made its appearance on the streets and has been offices in the city by the author, Dr. Henry 8 Chase, the dentist, who distinguished as a single tax advocate. circular begins with:

Emilie building to-day and found him in the act of extracting a molar from the jaws of a young patient. On learning the object of the reporter's visit, the old doctor immediately bristled up and said:

"I have lived 70 years, and never before have I seen or heard of a more outrageous measure as is about to be passed by the representatives of the people at Washington. I have written to Senator Vest and to Edmunds of Vermont, the State where I was born, in denouncing the Federal election bill, and I have sent those circulars to over 100 newspapers in different parts of the country. At my home in Benton I have erected a large bill-board, and on it have written in letters large enough to be seen from the train:

"It is despote."

"The Federal election bill."

"White to the Senate."

"It ell you I am awfully worked up over this matter. I am a free trader and a Democrat of the Jeffersonian school, but am also an Independent. I vote for the best men in both parties."

Thief-The Robber Captured. Philip Gleich, living at 3000 Chouteau avenue went to sleep in a doorway on North Broadway near Christy avenue last night. About 2 clock this morning he awoke to find a burly negro on his breast in the act of cutting open his pockets with a knife. Gleich did not dare make a move for fear of injury to his person, and was compelled to quietly submit to being robbed of a pocket knife and a porse containing a small sum of money. The negro escaped down Broadway. Gleich at once notified a Third District police officer of the robbery, and a good description of the thief soon spread along the beats. The news finally came to the ears of Officer E. G. Hancock of the Central District. About 2:30 o'clock Officer Hancock noticed a negro answering the description of Gleich's assailant hurrying along Broadway near Olive street. He placed the man under arrest and on searching him at the Four Courts found the stolen property in his possession. Gleich afterward identified the articles fully and will to day swear out a warrant charging the negro with robbery. THE SAME OLD STORY.

A DISAGREEMENT BETWEEN THE COUNCIL AND THE HOUSE OF DELEGATES,

And the General Appropriations Must Wait Selling a Franchise-Municipal Matters.

The fight over the appropriation bill is on now and it is hard to tell when the Council and House will come to an agreement upon the points of difference. The only thing pos bodies upon the amendments now under contemplation. There are several small amounts upon which the two bodies do not agree which could doubtless be readily arranged, and there are also many upon which they cannot so easily come to a settle-

The amendments the Council refused to concur in are as follows:

One hundred dollars for expenses or Boiler Inspectotor convention, \$40,000 or additional police, \$1,000 for Washington Square, \$3,000 for music in the parks, \$3,000 for killing dogs, \$20,500 City Hall, \$6,000 for work on public buildings, \$10,000 for Soulard Market, \$2,500 for public drinking fountains, \$5,000 for igreenhouses in

The City Hall appropriation was fixed by the Council at \$100,000 and cut down to \$50,000 by the House, and \$40,000 of this money put to the police fund for additional men. The

Council will fight the change. The House fixed the amount for improving Soulard Market at \$10,000, which arrangement the Council will not agree to.

drinking fountains, which can be divided between the saloon precincts in payment of

tween the saloon precincts in payment of political debts, and the Council falls to come in on the plan.

These are the main points of difference, and judging from the make-up of the committee it will be some time before the bill is passed. Upon the passage of the bill are dependent many important improvements and the salaries of all the city employes, and until the bill is passed no money can be had. It is scarcely possible now toget the thing through by the first of the month.

A New Milk Bill.

There is a new milk ordinance now in the Council which will put the present Milk In become a law. It was introduced by Mr. Nel-

spector in a peculiar position should it ever become a law. It was introduced by Mr. Neisonlast night and contemplates several important changes in the milk laws of the city, but the main point of difference between the new ordinance and the existing one is on the 'skim milk' regulation. When the present ordinance was passed it was found to conflict with the State law upon that particular point, the city law absolutely prohibiting the sale of skim milk whether soid as such or not, while the State law permitted the sale of that article on condition that the vendor give the purchaser to understand that it was skimmed milk he was selling.

The new ordinance conforms exactly with the State law, and therein arises the complication. A few days ago the Milk Inspector, who was appointed under the city law, had a milk dealer arrested and brought into court for selling skimmed milk. The Inspector has also expressed himself in very forcible terms upon the subject, and pronounced the skimmed article absolutely unhealthy and dangerous. If the new bill passes he will naturally be compelled to sanction the sale of an article which he has declared bad. If the ordinance is changed upon that point there will be no use in passing it, as in other respects it is practically the same as the law now in operation.

Still Unsettled.

The nomination of Mr. Mark A. Shipley f Street Commissioner was not acted upon la night in the Council, as the committee d not make a report upon the name. The plan not make a report upon the name. The plan of the Council on this particular subject ar not known, but they will either reject the appointment altogether or leave the name of the shelf until after the summer vacation, as to prevent the Mayor from putting the man of his choice in office for a brief term.

In that mysterious manner in which fact often leak out, it was learned this morning that Harbor Commissioner Murphy was undeconsideration as the next victim for the Council to put out of the way. Mr. Murphy said he had not been informed of it yet, but spoke as if the matter had been suggested thim before. He held a long conversation with City Counselor Bell, at the conclusion of which neither gentleman knew anything. Mr.

which neither gentleman knew anything. M Murphy said, however, that should he lasked to take the nomination the probabilities would be that he would respectfully d A Road for Sale.

The Council has passed a bill offering for sale a very valuable railroad franchise and a action of the House. The bill was introduce

action of the House. The bill was introduced in the early part of the session and was then known as the North & South Rapid Transit Ralifered bill.

The projectors gave up the idea of building the road some time ago, and after being shifted around and passed through committees it emerged in the shape of a bill to sell to the highest bidder practically the same franchise. The road begins at Cherokee street and the Gravois road and goes northward over Utah, Thirteenth and Lynch streets, Second Carondelet avenue, Dolman street, Chouteau avenue, Eighteenth street, Lucas avenue, Nineteenth street, Cass avenue, Benton street, Twentieth street, and then to the Calvary Cemetery. To the main line are added a couple of short branches of considerable importance. In the original bill the company was to pay \$1,000 for ten years' and \$1,000 additional for each succeeding ten years. The franchise is good for thirty-five years.

The Sprinkling Committee, mittee on Sprinkling to go ahead with the work of investigating the subject, but as yet nothing has been done beyond the appointment of the members of the committee from both branches of the Assembly. There is considerable work for the committee to do, and a good many facts and figures to be gotten together. The question the committee is expected to decide is the advisability of bringing about a change in the present method of having the street sprinkling done. To make the change and have the city do the work first-handed would require a charter amendment by a vote of the people. It is very probable that, in view of the many difficulties encountered this year in letting the contracts, that the city will mittee on Sprinkling to go ahead with the

Mountain Key opened strong and for a while promised to advance, but a few shares thrown on the market checked the rise. The first sales were at 65%, which figure was paid for 200 shares. The price declined to 62½, and after 400 shares had been disposed of to 61½, at which 100 shares changed hands.

Mickey Breen was weak and declined in price, 300 shares seiling at \$1.10, and more being offered at that price.

Richmond Hill was in good demand and 121/2 was paid for 1,000 shares.

Tourfelotte was quiet, the only sale being one of 200 snares at 4.

A letter was received from the Cleveland, stating that an assay had been made showing six ounces of gold, twenty-six ounces of silver, and 50 per cent of lead. The stock was stronger than it has been for some time. The market opened at 5½, and after 500 shares had been sold, rose to 6, at which 200 shares changed hands.

There were several offers of Mining Ex-change membership, the price asked declin-ing to \$40 and the highest bids being \$30.

GENUINE OMISSIONS.

THE CENSUS VERIFICATION PROVES THE CHARGE OF INCOMPETENCY TRUE-

Eleven Men Who Had Not Been Counted Found by the Enumerator in One Place-Mr. Bain Tells How the Work Is Being Done-East St. Louis Beats Belleville.

on the curb, no sales were made. Elizabeth was \$2.15 asked, \$2.12½ bid. Samon was \$2½ bid, offered at 3. St. Joseph was 11½ bid, offered at 3. St. Joseph was 11½ bid, ator and policeman called there and 15 asked; 30 was bid for Skyrocket, \$2½ asked.

That fellow don't live

to them, 'That fellow don't live here. He lives away over in Illinois. He gave you his name for a joke. but on the other hand, they went to Wainwright's Brewery to look up three men who were reported as missed, men who are employed in the stable and live there. The numerator was sure he had left a blank there and never got it back. Yesterday the police-man and the enumerator found eleven men who had not been counted and they were added to the list.

man and the enumerator found eleven men who had not been counted and they were added to the list.

HOW IT IS DONE.

"By the way," said Mr. Bain, "I haven't got my commission yet, but I am going ahead just as if I had it. It can't do any harm. But it doesn't seem to me that anyone understands just how we are working. This is the plan, the police books have been sent on to Washington and the clerks there have compared them with the official schedules. For instance, if they find on the police list John Jones, 1020 Olive street, they look on the official list and if there is no John Jones of 1020 Olive street down there the name is put on a separate sheet. These sheets are sent to Weigel who keeps the original and makes a copy. The copy is put in the hands of the enumerator, who takes the official blank with him and goes with the policeman to see John Jones at 1020 Olive. If they find him the enumerator asks: 'Did you live at this number on June 2?' If John Jones says 'no,' then he is enumerated officially in the same manner he would have been had he not been omitted. But if he says, 'No, I did not live here on June 2; I lived on Walnut street,' then a memorandum is made and sent on to Washington, where they will look for John Jones of Walnut street. If he is found recorded on Walnut street his name is scratched off the police list, if not, it is added to the cofficial list. That is the way in which the count is verified, and that is the work we will have to do.'

The names are expected to come in larger batches now, and more enumerators will probably be needed. The enumerators who are now at work are: Henry C. Kane, Wm. Hirt, W. W. Wheeler, Jas. Coff, E. P. Olshausen, Adam J. Slegrist, John L. Filokner and Henry L. Wacke.

These are said to be among the best of the old enumerators, and they are working steadily without complaint. But around Maj. Weigel's office is another gang of the old corps, and as usual they are kicking about pay. They are a lot of idlers who never do anything but odd jobs of this kind and want to be paid for first-class work when the work they do is practically worth nothing. It is their fault that this verification has become necessary and now they won't work on it. Those who are working are receiving \$3 a day and the kickers who have not been employed, but stand around the office hoping to be are loud in their complaints, because if they should be employed they will be paid only \$3 instead of \$4 a day. These are the men who have before the Secretary of the Interior a petition for AN INGREASE OF PAY for the bad work they did in June. The probability is that they will not be employed at any price, but it is offensive to hear their complaints now about what they would get if

probability is that they will not be employed at any price, but it is offensive to hear their complaints now about what they would get if they were given work. In the language of the small boy, "they have no kick coming." These, too, are the men who thought it exceedingly impudent in the Clitzens' Committee to question the corrections of their returns, and said they would get their friends to ald them in making the corrections farce. Now they are begging for work and kicking because the prospective hire is not greater.

According to Supervisor Schmidt of St. Clair County, East St. Louis and Belleville had a close tussle for first place. Thereturns from these two cites as he has given them gut are as follows:

Enst St. Louis—First Ward, 2,101; Second, 2,100; Third, 1,554; Fourth, 2,311; Fifth, 2,782; Sixth, 2,000; Seventh, 2,340. Total, 14,393.

Belleville—First Ward, 2,714; Second, 2,114; Third, 2,146; Fourth, 2,344; Fifth, 1,499; Sixth, 1,991; Seventh, 2,015. Total, 14,823.

A week ago matters were causing anxiety, and now they create apprehension of a pronounced degree in the best districts. A week ago matters were causing anxiety, and now they create apprehension of a pronounced degree in the later in the harvest season, as in 1889. Possibly St. Swithin's six weeks may this year prove as dry and favorable as they were the reverse last season. Anyhow, the position is such as to give the markets decided firmness in value.

The London Foonomist, July 12, states that the past week has brought about no tangible improvement in the weather in the United Kingdom. There have been some hours of fairly fine weather during one or two days, but heavy rains have been ear. Perienced throughout the country in close succession. The crops in many places have been beaten down seriously over a wide area. The temperature has been unseasonably low and calculated in every way to retard progress. A spell of fine hot sunshine would no doubt retrieve much of the mischief, but it could bardly restore the possibility of so good an outturn as was indicated in the general outlook a month ago. At this late perioda week's delay in the return of fine weather indensities the gravity of the Stitustion.

J. C. Ewald received the following on spring wheat crop prospects, and as he handed the measages to the Post- Ispatch he remarked: "You pays your money and you takes your choice." Dornbusch of July 7 says of the French crop of corn, even with most favorable weather. This meteorological situation in the weather having turned to rain with a lower temperature. This meteorological situation is the condition as one days longer. Owing the the heavy rain and wind numerous fields of wheat have been "lodged" and it is indisputable that the crop has lost much of the bright prospects of a week ago. The return of a long spell of dry and sunny days might, in a certain measure, repair the damage that has been austalued, but it appears incontestible that the total yield will be below that of last year. Emporia Kan., telegraphed—Nearly one inch of rain fell here this morning, falling slowly and thoroughly drenching the earth. This will do an immense amount of good, as much corn will be saved thereby. However, it is generally conceded that at best, not over haif a crop will be gathered, nearly all early corn being beyond saving.

Private wire to J. P. Grier: An article dated Leadon of yesterday says: "Everyone now admits the wheat yield will be the worst tince 1879, that stocks of English wheat are exhausted, and much the same stories of damage, etc., come from the continent. It adds that official reports of the Russian crop for the month makes a very gloomy showing, but Berlin people say this is done to effect exchange."

NOT HELD RESPONSIBLE.

SAUNDERS, THE WATCHMAN, NOT DEEMED GUILTY IN THE BERG KILLING.

The Inquest Held To-Day and a Large Num ber of Witnesses Testify-Saunders Still in Jail and Application for a Warrant May Be Made Against Him—His Story of the Affair.

The Coroner's jury, which this morning heard the evidence in the case of Louis Berg, returned a verdict shortly after 10 o'clock finding simply that Berg had come to his death from a fracture of the skull inflicted by a club in the hands of Henry Saunders. This leaves the responsibility of issuing or refusing to issue a warrant against Saunders wholly with Assistant Prosecuting Attorney Dierkes, who cannot take any action what ever for several days, owing to the fact that the typewriter transcript of the testimony taken cannot be prepared before Friday or Saturday.

As told fully in yesterday's POST-DISPATCH Berg, who was only 19 years old, and a car penter by trade, was one of a party of young men who were alleged to have created a disturbance on Monday evening in the revival tent at Jefferson avenue and Mullanphy streets, where Mrs. Woodworth and a corps of evangelists have held forth for the past two months with so much vigor. These disturbances have been of a frequent occur-VANNAH-Receipts, 413 bales; market steady at rence and Mrs. Woodworth had engaged the VANARI-Receipts, 43 bales; market steady at performer steady at the performant of th MORILE-Receipts, — bales; market firm at 118c.

Mrs. Drake told of losing a breast pin and of the offer of Berg to assist her in finding it. Saistance. Berg among others then comenced to "guy" the worshipers and were ordered to leave the tent. They went as far as the entry, where Saunders and the crowd had words. Two witnesses said they had seen Berg raise his arm to strike had orders before the watchman used his club. Several others said they had seen some one in the crowd of young men raise his arm. They could not swear that this was Berg. Others insisted that the deceased had made no demonstrative move. These latter witnesses were for the most part members of the crowd to which Berg belonged, sithough two or three of those interested in the welfare of the revival admitted that they had seen no move on they young man's part.

Saunders bimself made a statement. He said Berg acted as the leader of the gang of disturbers and made himself particularly disagreeable to the ladies who were passing a subscription paper. When they were asked to leave the tent after the services were over, they refused to go and Mr. Kauffman asked him to put them out. They went as far as the entrance, when Berg called him a "dirty cur," and asked him if he had joined the Saivation Army. He said he did not mind this and would have used no violence had not Berg stepped forward and made a pass at his head with his fist. The blow he struck Berg was only a slight one. Saunders said he was a regularly licensed private watchman.

It is not yet known what will be the outcome of the case. There is considerable tea.

struck Berg was only a slight one. Saunders said he was a regularly licensed private watchman.

It is not yet known what will be the outcome of the case. There is considerable testimony of such a character as may have the effect of sending Saunders to trial in the Criminal Court. The question in the minds of the authorities, however, is whether or not that testimony is sufficiently reliable to be used as a basis for an action for murder. In the meantime Saunders is being held at the Four Courts.

A SENSATIONAL INCIDENT.

A sensational incident was enacted at Mrs.
Woodworth's tent a few evenings before the disturbance occurred which resulted in the death of young Rerg. Rev. E. T. Colman was preaching, and the crowd of hoodlums occupying the front row of seats at the side of the altar had been more annoying than usual. It was near the end of the discourse and the young men, bent upon improving the remaining time, were laughing violently. The minister stopped short and leaning over pointed into the face of the leader and shouted: "Young man, there'il be no laughing in hell! There'il be no laughing in hell! There'il be no laughing in hell! There'il be reacher towering above them on the high platform, the thunderous tones and the stern accusing face awed them into elience, which was not broken as long as Mr. Colman continued to speak.

Grand Army Veterans Take Charge-Dis-SILVER LAKE ASSEMBLY, N. Y., July 23 .-This is Grand Army day here and the veterans have taken entire possession. The Grant-Howard excursion train arrived last night from New York, and there was general regret when it was announced that Mrs. Grant was too ill to be present. Maj. Gen. Henry W. Slocum, who was also expected, did not arments. All the other distinguished people who were invited are here. The hotels and cottages at the Assembly grounds and along the lake were crowded to overflowing last night. This morning broke bright and clear and fine weather is assured for the celebration which bids fair to be a pronounced success. Early this morning crowds began to swarm in and about the assembly grounds and as the hour for the opening of the ceremonies approached there were over 5,000 people present. At 11 o'clock Job E. PALO ALTO TROTTERS.

BELIEF IN CALIFORNIA THAT THEY ARE NOT CAMPAIGNERS.

he Browns Take Their Fourth Consecutive Game From the Athletics-Gaudaur's Crew Captures the Professional Four-Horse Racing and Sporting News Gen-

HE news of th match between Palo Alto and Jack hav ing reached here, was something of surprise to the loca horsemen, as they did not suppose that the Palo Alto people match with any horse on any terms, writes a San Francisco corresponden of the Horseman. It is not their way of

fact that the Easterners think that the Palo Alto horses are not campaigners is not unnatural. Some of the coast horsemen think the same thing. Palo Alto himself, one of the greatest representatives of the family, had a campaign on the coast last season, but as the

turf records show, it was not a trying one by any means. He started in a number of races, but they were all ractical walk-overs for him, races in which Marvin could rate him just as he chose, and not contests where he had a field to fight all the way from the first to the last heat. The best race of the year was the Stockton stallion race, where he put three heats down in 2:1642. 2:17% and 2:13%. In that race Direct and Bay Rose, the other two stalllous that started, were hardly competitors, but acted more as prompters. In the last heat a runner brought Palo Alto through the stretch. Had that race been fought out and won in the time registered then he would have earned the right to be called a racehorse. None of his local races would entitle him to comparison with Jack as a campaigner, even though his mark is two and three-quarter seconds better. If the match comes off, Palo Alto will carry plenty of California money, as it is believed among the local judges that the stallion can beat Jack in straight heats. Palo Alto is not an early horse by any means, and he requires a world of work to get him ready, and the change of climate and the character of the track upon which he will have to trot will militate against him, but, for all that, it is thought he can show Jack the way in three heats. Comshow Jack the way in three heats. Competent judges put the best heat at 2:13½. The prospective Sunoi-Axtel match is being discussed a good deal among the local horsemen. The same thing that will conspite to defeat Palo Alto will also work against the filly. She is very nervous and crowds worry her, and in the event of a race with Axtel there would be an immense and excited crowd present, and the filly would be materially affected by it. Still, if she starts, the Californians will be with her almost to a man, and they will put their money on her in the pool-box. State pride, if nothing else, would wish her to win.

A Great Foot-Race.

There is a strong probability that before the merican championships are decided this fall the question of supremacy in quarter-mile running between W. C. Downs of Harvard and running between W. C. Downs of Harvard and W. C. Dohm of Princeton will have been decided. Downs wants to make a record with which absolutely no question can be found, and Dohm, who was prevented from training for the quarter this summer by a strained back, also wants to have a try as it.

Wendell, the ex-Harvard holder of the record, thinks that with hard training he can beat either Dohm or Downs. Both the latter are willing to accommodate him, and Mr. Baker will be invited to participate should the race take place.

to be rowed over again with the St. Pauls out.

The races yesterday afternoon were rowed at the West Superior course, it being 4:35 o'clock when the first took place. The water had become quite rough. The senior doubles brought out representatives from the Minnesotas, the Lurlines, Winnepegs, Catlins and Cedar Rapids, and they finished as named, the winners' time being 10:55½.

Corbett and Pearson were the only starters for the senior singles, and the former won easily by two and a half boat lengths. Time, 12:30.

lor the senior singles, and the former won leasily by two and a haif boat lengths. Time, 12:30.

Five crews were entered in the four-oared professional contest, and their positions from the shore were as follows:

Hanlon's crew, consisting of Hanlon, stroke; Teemer, Hosmer and Wise.

Ross' crew, consisting of Ross, stroke, Harry Vall, J. A. Kennedy and D. F. Murphy. The West Ends of Buffaio.

Gaudaur's crew, consisting of McKay, stroke; Hamm, Gaudaur and Ten Eyck.

The Eries of Buffaio.

The Eries were the first to catch the water, but Hanlon's crew soon took the lead, followed closely by Gaudaur's crew, and after the first half of the down stretch was covered the Hanlon and Gaudaur crews were the only two in the race. After a magnificent struggle they reached their turning buoys at almost the same instant, but Hanlon's crew made the turn first and pulled on the home-stretch at a terrific pace, leaving their rivals two boatlengths behind. At the half-mile buoy the Gaudaur crew, who had been reserving their strength, spurted and closed the distance, and then followed a desperate finish, the Gaudaur crew gaining very slowly and crossing the line winners by a length and a half. The Eries finished third away back, while the Ross crew, which was fourth, was several boat lengths behind them. The West Ends gave up the race. Three miles was the distance of the course and the winners covered it in 18m. 20. They get \$1,200, the second crew \$600 and the third \$300.

THE QUESTION OF A LARGE GARRISON BEING CONSIDERED IN WASHINGTON.

Arguments That Are Advanced by Officer in Favor of Making Jefferson Barracks an Important Post-Why This Was Not Done Before-Assistance From Citizens of Great Importance.

HERE is a great deal of discussion going on in Washington just now," said employe of the War Department, who is at the Lindell. "in posed changes in the mand in the army and and St. Louis is given

any other point, as it is there that the changes are most likely to be made.

A CHANGE PROBABLE. "A great pressure has been brought upo the War Department by the officers of the Engineer Corps, and especially by the line, to induce the Secretary of War to order the establishment of a strong post at Jeffer-Barracks. Gen. Wesley Merritt has, on being consulted in reference to the matter, given it as his opinion that no place in the department is so well adapted for a large post, and other officers of rank have iven similar testimony. The idea is by no means a new one, as the strategical and economic advantages of St. Louis have long been recognized, but hitherto there has been strong opposition to giving St. Louis any military prominence. For many years Denver has been endeavoring to secu location of headquarters in that city. Kansas City has been pursuing the same aim, and Leavenworth of course opposed anything that would look like a change. St. Louis, as I happen to know, having for years had the son said to-night that the President correspondence in relation to such matters in my hands, made no organized effort to influence either Congress or the War Department, and therefore the matter was allowed

ment, and therefore the matter was allowed to drop.

"The action of Gen. Merritt in selecting St. Louis as department headquarters changed the entire aspect of affairs. Neither Denver, Kansas City nor Leavenworth have anything to expect from any changes in army organization, and their hostility to the selection of St. Louis as the place for the establishment of a large post has ceased. The delegation that recently visited washington to urge an appropriation for the improvement of Jefferson Barracks called on the Secretary of War, and represented the advantages that the selection of St. Louis as a garrison would carry with it. An engineer officer has now before the department a map showing the various railroad connections of this city, with a calculation of the time that would be required for the troops to reach any point to the east, south or west. The country north of this city can take care of itself, as there are plenty of troops along the lakes and in the Northwest, but south and east of this city there is not a garrison to amount to anything more than Atlanta, Gs. There are many who do not like to see so large a section of the country deprived of troops, as occasion might arise for

their use to suppress riots, as was the case here in 1877, and as at present located, the troops are too far off to be of any service. The military officers of this department are aware of this, and for purely military reasons wish a garrison to be stationed here. wish a garrison to be stationed here.

THE QUESTION OF EXPENSE.

'The heads of the Quartermaster's and subsistence departments are also on the same side, as by stationing a number of troops in this city, the cost of supplying them would be diminished fully 20 per cent. The inadvisability of having a large city so easily accessible to a recruiting depot is universally acknowledged and all officers are anxious to have the percentage of desertions decreased, as the present rate casts a reflection upon the entire organization. It is believed that if the depot were located at some other point, the temptations and facilities for desertions would be much less. As a measure of economy Jefferson Barracks is just the place for a large post. The reservation is there and a new recruiting depot has been located at some of the posts that would otherwise have to be abandoned. If the citizens only take interest enough to push the matter, there is little doubt that they can succeed. The critical time will be in September or October. There is a strong probability of some change being made in the division of the Missouri, which is now without a separate commander, and if proper pressure is brought to bear at least fifteen companies can be secured for St. Louis."

Patsy Cary, aged 7, living at 1407 North Seventh street, is suffering from the effects of a severe assault at the hands of Martin Shipski, who owns a yard on Seventh street between O'Fallon street and Cass avenue. Patsy's dog chased Shipski's cat, and, withno further provocation, Shipski seized a whip and beat the boy viciously, besides knocking his head on the bricks.

That Cape May Cottage. NEW YORK, July 23 .- A special to the Trit une from Cape May, N. J., says: Mrs. Harrison said to-night that the President had refused to have the cottage accepted as a gift, but because of his liking Cape May so well, especially the cottage, he had bought it outright. The statement in the newspapers that the price was \$10,000 was untrue and the real price will not yet be made known.
